EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Andrew Freistein on 6 October 2011.

In claim 1, line 5, after "from" the phrase --the group consisting of-- has been inserted. Further in line 5, "and/or" has been changed to --and--.

In claim 9, line 2, "substantially" has been deleted.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art rejection over Velzel has been withdrawn in response to applicant's remarks of 28 September 2011.

Claim 1 originally recites a range of carbon atoms from 1-10 and as currently amended recites a range of 2-6 carbon atoms. Claim 3 as originally filed provides support for a range of 2-5 carbon atoms. Support for six carbon atoms is provided from experiment 1 on page 5 of the instant specification which recites citric and gluconic acids which contain six carbon atoms. As such the rejection of claim 1 under 35 USC 112(1) is withdrawn as a range of 2-6 carbon atoms is supported.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
